

LEUCOPHYLLUM LANGMANIAE RIO BRAVO®

This dense evergreen shrub has a rounded form, with lush, deep green leaves. Sprinkles of lavender flowers are produced on and off during the summer and fall months during periods of high humidity. It thrives in full sun and reflected heat locations, and prefers well-drained soils. This selection of Texas Ranger has a particularly dense rounded form, requiring very little pruning if sited thoughtfully. Space plants five feet apart and allow them to grow naturally, without shearing. Rio Bravo® is cold hardy to 10 degrees fahrenheit.

AT A GLANCE SUMMARY

SIZE (H X W)	5 feet x 5 feet
FLOWER COLOR	Lavender
FLOWER SEASON	Summer and Fall
EXPOSURE	Full sun
WATER	Low
GROWTH RATE	Moderate
HARDINESS	10° F, USDA Zone 7
PRUNING	Prune to shape
