

LEUCOPHYLLUM ZYGOPHYLLUM CIMARRON®

This petite evergreen shrub has a soft, rounded form, with distinctively cupped gray-green leaves. Masses of blue-purple flowers are produced on and off during the summer and fall during periods of high humidity. Cimarron® is one of the smaller Texas sages, topping out at about 3 feet tall and wide. This species is sometimes called Blue Ranger. It is less likely to rot out than other cultivars but do not overwater and provide well-drained soils to avoid problems.
