

Tecoma X 'Solar Flare' Solar Flare Esperanza

For sizzling warm-season color, look no farther than Solar Flare. Bright orange flowers tinged with red attract hummingbirds from spring through fall. Full sun and reflected heat locations are ideal for this heat-loving shrub. Plants will bloom in the shade, but produce many more flowers in sun exposures. Solar Flare grows rapidly to a mature size of about six feet tall and wide. Freezing temperatures will burn the foliage, but simply cut plants back hard to rejuvenate in the early spring.

AT A GLANCE SUMMARY	
SIZE (H X W)	4-6 feet x 4-6 feet
FLOWER COLOR	Bright orange
FLOWER SEASON	Spring through fall
EXPOSURE	Full sun
WATER	Low to moderate
GROWTH RATE	Rapid
