

Agave schidigera Durango Delight™

This symmetrical and compact selection of *Agave schidigera* is a favorite for tight planting spaces, and as a container plant. Durango Delight™ reaches a mature size of about 2 feet tall and wide, with stiff, one-inch-wide dark green leaves radiating uniformly from the center. These green leaves are decorated with attractive white fibers and markings. Although the leaf margins are unarmed, each leaf ends in a sharp terminal spine. Plant *Agave schidigera* in full sun or part shade exposures, and in well-drained soil.
