

## Chilopsis linearis Warren Jones™ Desert Willow

This clone of desert willow was named in honor of the famed Landscape Architecture Professor Emeritus Warren Jones, of the University of Arizona. This desert willow grows quickly to about 25 to 30 feet tall and wide. It was selected for its large, showy, light pink flowers. This introduction produces fewer seedpods than usual, and is an excellent choice for patios and along paths or walkways. In low deserts Warren Jones™ is nearly evergreen, or is deciduous for a very short period of time. Hardy to about 0°F. USDA Zone 6.

AT A GLANCE SUMMARY	
SIZE (H X W)	25-30 feet x 25-30 feet
FLOWER COLOR	Light pink
FLOWER SEASON	Spring through summer
EXPOSURE	Full sun, part shade
WATER	Low
GROWTH RATE	Moderate to fast
HARDINESS	0° F, USDA Zone 7
PRUNING	Prune to shape
