

Leucophyllum zygophyllum Cimarron® Cimarron® Sage

This petite evergreen shrub has a soft, rounded form, with distinctively cupped gray-green leaves. Masses of blue-purple flowers are produced on and off during the summer and fall during periods of high humidity. Cimarron® is one of the smaller Texas sages, topping out at about 3 feet tall and wide. This species is sometimes called Blue Ranger. It is less likely to rot out than other cultivars but do not overwater and provide well-drained soils to avoid problems.

AT A GLANCE SUMMARY	
SIZE (H X W)	3 feet x 3-4 feet
FLOWER COLOR	Blue-purple
FLOWER SEASON	Summer into fall
EXPOSURE	Full sun, reflected heat
WATER	Low
GROWTH RATE	Moderately slow
HARDINESS	10° F, USDA Zone 8
PRUNING	Light trim early spring
