

## Oenothera stubbei Chihuahuan Primrose, Baja Primrose

This dense groundcover occurs from Chihuahua, Mexico into Nuevo Leon and Baja California. It has narrow, dark green leaves and large, light yellow flowers that open at night and close the following morning as the day warms up. Cold weather may turn the foliage a unique reddish-purple. This ground cover can handle full sun but for best results plant in part shade and provide moderate irrigation.

AT A GLANCE SUMMARY	
SIZE (H X W)	1 foot x 4-6 feet
FLOWER COLOR	Yellow
