

Rosmarinus officinalis 'Huntington Carpet' Prostrate Rosemary

This prostrate rosemary selection grows about 12 to 16 inches tall by 4 to 6 feet across. First developed at the Huntington Botanical Gardens in California, it has dark green aromatic foliage and deep blue flowers that attract bees. This selection retains the foliage in the center of the plant better than other prostrate forms. It makes a durable groundcover and is useful for planting on slopes to aid in erosion control. Plant in full sun. Hardy to 10° F. USDA Zone 8.

AT A GLANCE SUMMARY	
SIZE (H X W)	12-16 in. x 3-4 ft.
FLOWER COLOR	Blue
FLOWER SEASON	Spring into summer
EXPOSURE	Full sun
WATER	Low to moderate
GROWTH RATE	Fast
HARDINESS	10° F, USDA Zone 8
PRUNING	As needed
